

Vettec How To Videos: Controlling the Flow of Your Vettec Material

AS SEEN
ON FPD'S
FACEBOOK

Recently posted to Facebook, FPD's Larkin Greene shares advice on how to control the flow of the Vettec adhesives like Adhere and Super Fast when doing applications on the bottom of the foot. A lot of hoof repairs are not done on a horizontal plane and require additional skill to get a good result and minimize waste of material. Greene explains some techniques you can use when doing applications on the hoof wall.

JUST A REMINDER

New Sizes in Kerckhaert Steel Comfort Sport and SX-10 Clipped

Sizes 000, 00, 1, 2, 3 and 4 are now available in the Kerckhaert Steel Comfort Sport series. The Comfort Sport design has the clips between the second and third nail hole. The heel width for the new Comfort Sport is slightly wider than the Steel Comfort and heels are center punched to allow drilling for studs or tungsten pins. Available in front only. The Kerckhaert SX-10 Clipped in size 4 Front and Hind is also now available.

January 2022 Facebook Giveaway

Welcome 2022! We are starting the new year with the 20+2 Facebook Giveaway. Twenty names will be drawn to win a single item and two names will be drawn to win the Plus Package. In January, the single giveaway item will be a FootPro Tool Roll. The Plus Package will include the following: a FootPro Tool Roll with (1) Top Level Rasp, (1) Diamond Poly/Wood Rasp Handle, (1) Diamond Loop Knife and (1) Bellota Stainless Wire Brush.

Look for posts on FPD's facebook page to register for a chance to win the monthly free give-away. This giveaway is only valid in the U.S. and Canada.

THE BEST RASPS FOR EVERY FINISH

"I've been using the Razor+ and I get many more horses out of each rasp.
They also speed you up with less effort. Great product!" - Rick Denning

AGGRESSIVE
