

**Tex with sons:
Doug, Kerry and
Steve Cauthen**

RONALD "TEX" CAUTHEN was born in Muleshoe, Texas and grew up near Sweetwater, Texas, on his grandfather's farm. As a teenager he broke wild horses before taking a job at the San Angelo Texas racetrack. He began on the racetrack accompanying racehorses to New Orleans at 15 years of age, and he raced in the Midwest until 1952, when he was drafted into the Army and trained as a meteorologist.

When Tex returned to civilian life he attended the blacksmith program at Michigan State University, and he soon became a highly-respected racetrack farrier. Tex was elected to the International Horseshoeing Hall of Fame in its 1993 inaugural class.

In 1959 Tex married Myra Bischoff, an owner and trainer. Their first son, Steve, was born in 1960, then their second son, Doug, at which point the Cauthens bought a farm in Walton, Kentucky, where their third son, Kerry, was born.

Steve won the 1978 Triple Crown aboard Harbor View's Affirmed as a teenager and later rode extensively in Europe, and is a member of the National Museum of Racing and Hall of Fame. Doug is President of Doug Cauthen Thoroughbred Management LLC located in Lexington, KY, and Kerry is managing partner of Four Star Sales, a Lexington-based consignment company.

OPTIMIZING FARRIER / VETERINARIAN / RESEARCHER INTERACTIONS SEMINAR SCHEDULE

Sunday, January 20 • 9:00 a.m. - 5:00 p.m.

Hans Albrecht would like to thank Dr. Horohov for permission to use the Gluck facility, to the speakers for coming so far to present to us and to the audience for their participation.

MORNING SESSION

9:00 A.M. TO NOON

Dr. Thomas Tobin, Chair

Introduction

Dr. David Horohov, Chair of the Department of Veterinary Science and Director of the Maxwell H. Gluck Equine Research Center

A World View on Evolving Farrier / Veterinarian / Researcher Interactions

Dr. Rob Holland, Board Member, Maxwell H. Gluck Equine Research Center

Cytokine Messages in Blood as Biomarkers of Horses at Risk of Musculoskeletal Injury

Dr. David Horohov, Chair, Department of Veterinary Science and Director, Maxwell H. Gluck Equine Research Center

Navicular Bone and P3 Interactions and Overall Patterns of Navicular Bone and Related Damage in Front and Hind Limbs

Mike Savoldi, Professor Emeritus, Farrier Science Instructor, Animal & Veterinary Science, Resident Farrier, W.K. Kellogg Arabian Horse Center, California

COFFEE BREAK

Dr. Pedro DePedro, Chair

A Pathologist's Perspective on Navicular Disease

Dr. Laura Kennedy, University of Kentucky Veterinary Diagnostic Laboratory

A Clinician's Evaluation of Hoof Related Clinical Presentations, Biomechanical Driving Forces and Necropsy Results

Dr. Raul Bras, DVM, CJF, APF, Podiatry Department, Rood and Riddle Equine Hospital

QUESTION AND ANSWER SESSION

LUNCH

NOON TO 1:15 P.M.

Sponsored by Breeders Farrier Supply

AFTERNOON SESSION

1:15 P.M. TO HAPPY HOUR

Hans Albrecht, Chair

Life After Tenotomy, and Notes on P3 Fractures in Weanlings and Effects on Adult Racing Performance

Dr. Raul Bras, DVM, CJF, APF, Podiatry Department, Rood and Riddle Equine Hospital

Effects Upon the Equine Hoof that Define Hoof Shape and Farriery Techniques to Change Hoof Shape

Dr. Simon John Curtis, PhD, FWCF, Hon. Assoc. RCVS, Newmarket, England

COFFEE BREAK

Dr. Fernanda Camargo, Chair

Biomechanics and Joint Pathology as it Relates to Hoof Mechanics

Rick Snead, Dynamic Shoeing, Raleigh, NC

Relationships Between Offset Knees and Hoof Pathology and Optimal Correction of Same

Steve Stanley, Stanley Horseshoeing, Versailles, KY

ROUND TABLE DISCUSSION

Dr. Rob Holland, Chair

GUESTS OF HONOR

Doug, Kerry and Steve Cauthen

ORGANIZING COMMITTEE

Hans Albrecht, Dr. David Horohov,
Dr. Pedro DePedro, Dr. Fernanda Camargo
and Dr. Thomas Tobin
