

ABOUT THE CLINICIAN

Mike Chance, CJF APF

Mike Chance lives in Tioga, TX and has been shoeing full time since 1985. He has always been active in participating and promoting educational opportunities.

He has served as President of the Oklahoma Farriers Association as well as serving on the Board of the AFA. He continues to work with the AFA certification program to help farriers working to improve their skills.

While Mike's work is now divided between Cutting, Western Pleasure and halter horses, over the years he has worked in many other disciplines, as well. His presentation focuses on a common sense approach to everyday work and maintaining soundness in performance horses.

FEATURED PRODUCTS

Liberty Cu Horseshoe Nails with Copper (Cu) Shield Technology

In addition to all of the same great features of the regular Liberty nail Liberty Cu horseshoe nails include Copper (Cu) Shield Technology. This technology provides much more protection than traditional horseshoe nails. Hoof wall, white line and sole are stronger and healthier when Liberty Cu nails are used on a daily basis. The Copper (Cu) Shield Technology is unique to Kerckhaert and Liberty Cu horseshoe nails. Ask us about the full line of Liberty Cu Nails:

5 City, 5 Slim, 5 Combo Slim, 6 Combo Slim, E-2 Slim through E-7 Slim, LX-50, LX-55, LX-60, LX-65, LX-70, 3-1/2 Race, 3-1/2 Race XL, 4-1/2 Race, 5 Race, Hybrid 2-6, and Carrera Small, Medium and Long.

Kerckhaert Standard Max

The Kerckhaert Standard Max is the answer to increased demand from farriers for a basic shoe with additional thickness. The Standard Max complements the Kerkchaert Standard

KERCKHAERT

and Standard Extra. Slightly wider than the Standard, but in a 3/8" thickness, the Standard Max is produced on the same system as the Standard and Extra in order to provide a full toe, nicely balanced for the width of stock. The Standard, Standard Extra and Standard Max is a solid group of shoes that fit the needs of many pleasure, ranch and trail horses. The Max is packed in 10 pair boxes, in sizes 0, 1, 2 and 3.

Kerckhaert Ranger Lite Rim

The Ranger Lite Rim is an excellent shoe for activities that require more traction than a flat shoe and is a very popular style for rodeo event horses and general trail use. With a higher grade of steel for better wear and v-crease for better fit, this shoe provides the perfect solution for farriers who want the best results at a competitive price. This shoe features sole relief, excellent nail hole placement (including the heel nail) and a crisp rim for better traction.

Bellota Top Level Rasp

The Bellota Top Level is slightly thinner and about 10% wider (approximately 1.95") than traditional Bellota styles. The 8 tooth rasp side pattern has an aggressive cut and an intermediate file side, similar to the Bellota Top Sharp.

Vettec Cartridge Improvements

Check out the new cartridge improvements from Vettec! Vettec tips have 66% less waste than tips used by some competitors.
