

ABOUT THE CLINICIANS

Roy Bloom, CJF APF-I

Roy Bloom CJF APF has been shoeing horses since 1973. He has been a member of the American Farrier's Team on two different occasions and for many years served as the manager of the team.

Roy has always been willing to share the extensive knowledge he's gained over the years with members of the farrier industry. In addition to his farrier background, he developed a strong interest in blacksmithing and tool making and for many years has been manufacturing a broad range of farrier and blacksmith tools. He also has a fully equipped shop and the ability to do a wide variety of ornamental and artistic work.

Roy's work as a clinician has earned him the Educator of the Year Award from the AFA and a position in the Horseshoer's Hall of Fame.

Eli Beiler

Eli Beiler began shoeing in 1974. He and his family reside in Gap, Pennsylvania (Lancaster County). His father, Jonas Beiler started shoeing horses in 1963 and was recently still shoeing his own horses at age 87! Eli was 17 years old when he picked up a stable of Standardbred race horses to begin his career. Much of his business today is with Standardbred race horses as well as buggy horses in the Amish community he lives in, shoeing for speed and soundness. He has considerable experience dealing with quarter cracks, heel cracks and toe cracks due to the hard surfaces many of his clients are on. His passion is teaching other farriers to be a better farrier than he is. He has conducted clinics and training in his local community as well as Ohio and Pennsylvania in recent years. You'll enjoy his perspective in dealing with horses that are working on very difficult surfaces.

FEATURED PRODUCTS

Liberty Steel and Cu Nails

Designed by Kerckhaert Horseshoe Company, Liberty steel nails have precise and consistent specifications, optimum clinching, accurate bevells and points to provide consistent driving and outstanding results. In addition to all of the same great features of the Liberty steel nail, Liberty Cu horseshoe nails include Copper (Cu) Shield Technology. This technology provides more protection than traditional horseshoe nails.

Kerckhaert Standard Series

The Kerckhaert Standard Series delivers a full toe, balanced for the stock width and a v-crease that allows appropriate nail choice for hoof and horse size. The Kerckhaert Standard, Standard Extra and Standard Max can easily be modified to front or hind pattern.

Bellota Rasps

**Why Professional Farriers Choose
Bellota Rasps**

- Special Bellota Chrome
- Alloy Steel
- Exceptional Quality
- Uniform Teeth Geometry
- Exclusive Bellota Sharpening Technology

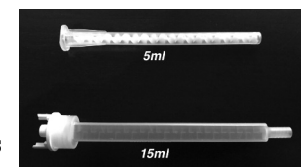

Bloom Forge

When you purchase tools from Bloom Forge, they come to you ready to function for the purpose they were intended. With over 40 years experience as a farrier, Roy Bloom understands the use of the tools and has a reputation for the greatest attention to detail - and maximum performance - for every product he manufactures. These products include hammers, tongs, knives and steel and wood handled tools.

Vettec Cartridge Improvements

Check out the new cartridge improvements from Vettec! Vettec tips have 66% less waste than tips used by some competitors.

Vettec 5ml (above) mix tips compared to 15ml tips (below) for 200ml cartridge.
