## ABOUT THE CLINICIAN

### WITH HENRY DETWEILER, CJF

Henry Detweiler, CJF of Vermontville, Michigan, has been shoeing since he was 16 years old. In 1988, Henry became a full-time farrier. For 35 years, he has shod all breeds, six days a week – four days on the road and two days in the shop.

Henry joined the American Farrier's Association (AFA) and Michigan Horseshoers Association (MHA) in 1990. In 1992, Henry passed the AFA Certified Farrier exams, and in 2006, he passed the AFA Certified Journeyman Farrier exams.

In 2019, Henry was awarded the AFA's Edward Martin Humanitarian Award, which is awarded to a farrier who shows an active effort in promoting goodwill within the profession. Henry was able to meet Edward Martin at his first AFA Convention in Little Rock, Arkansas, 33 years ago.

Henry hosts the AFA Certification once a year in September for the MHA. He feels blessed to continue his career, while meeting and helping fellow farriers.

## Featured Products

**FOOTPRO™ DIM IMPRESSION MATERIAL**  
A non-toxic, non-allergenic, dental grade silicone that is hand mixed to a moldable consistency and applied to the bottom of the equine foot with a pad to provide either a soft cushion (DIM20), or a firm supportive material (DIM40). Each box contains a total of either 4 lbs. or 2 lbs.

**KERCKHAERT SX-10 CLIPPED**  
The first 10mm Clipped Kerckhaert shoe in a front and hind pattern not punched for E-head nails. Features a full, balanced toe, extra thickness, graduated widths and a 10 nail hole pattern. Fronts are quarter clipped and hinds are side clipped. Great choice for farriers looking for additional strength, wear, nailing and modification options.

**LIBERTY NAILS**  
Designed by Kerckhaert Horseshoe Company with precise and consistent specifications, optimum clinching, accurate bevels and points to provide consistent driving and outstanding results.

**BELLOTA RASPS**  
Guaranteed consistency, and varying combinations of rasp and file coarseness, length and width options. Tests have shown that Bellota outperforms the competition and delivers better cutting performance, consistency and durability over time.
